GENERAL INFORMATION

Containers and lids are produced by Polypropylene in grades approved for food packaging according to European Regulation 10/2011, 1935/2004, 2023/2006 (and their modifications). Overall and specific migration controls are carried out according to European Regulation 10/2011. The products are mainly available in white, in various other colors after order. The product is 100% recyclable. The specification allows -1% tolerance.

STORAGE AND SHELF LIFE

For a period of 24 months following the date of production, the product is guaranteed to comply with the technical specifications outlined in this data document, if it is stored appropriately. Suitable storage involves safeguarding against direct sunlight, rain, and extremely low or high temperatures for an extended period. Temperature: PP products should be stored at ambient temperatures, ideally between 10-25°C (50-77°F). Customers should make internal trials to determine the viability of stacking and transportation.
